

RESUMO

ESPÉCIE: Laudo de Precificação.

SOLICITANTE: MEGA LEILÕES.

EMPRESA: OCEANAIR LINHAS AÉREAS S/A

OBJETO: Estoque de Componentes Aeronáuticos (serviceable, unserviceable, tools e estoque geral).

FINALIDADE: Precificação de componentes aeronáuticos para venda em leilão.

METODOLOGIA: Método Comparativo Direto de Dados de Mercado.

DATA-BASE DA PRESENTE PRECIFICAÇÃO: julho de 2021.

VALOR RESULTANTE DA PRECIFICAÇÃO

US\$ 39.418.898,16

**(TRINTA E NOVE MILHÕES, QUATROCENTOS E DEZOITO MIL, OITOCENTOS
E NOVENTA E OITO DÓLARES AMERICANOS E DEZESSEIS CENTAVOS).**

1. CONSIDERAÇÕES PRELIMINARES

1.1 LIMITAÇÕES E PREMISSAS FUTURAS

O presente laudo trata da precificação inicial de itens aeronáuticos de propriedade da empresa **OCEANAIR LINHAS AÉREAS S/A. inscrita no Cadastro Nacional de Pessoas Jurídicas do Ministério da Fazenda sob nº 02.575.829/0001-48**, e localizada na Av. Washington Luís, 7059 – Campo Belo, São Paulo- SP.

Nesta precificação, foi considerado o estado aparente dos bens, podendo haver danos no seu todo ou em partes, peças/partes faltantes, ou ainda necessidade de recertificação. Assim, os itens foram classificados e sofreram deságio conforme sua qualificação para uso na aviação.

Vale salientar que, na modalidade de leilão, os bens são arrematados no estado em que se apresentam. Dessa forma, não se configura uma relação de consumo, nem pode haver alegação de vício oculto por parte do arrematante contra o leiloeiro ou comitente.

O avaliador também informa não ter interesse, direto ou indireto, nas companhias envolvidas ou na operação, bem como não haver qualquer outra circunstância relevante que possa caracterizar conflito de interesses.

Por fim, esclarece que os valores finais apontados no presente estudo estão todos expressos em **DÓLAR AMERICANO**.

2. CARACTERIZAÇÃO DOS BENS

Os bens precificados neste laudo representam uma estimativa do estoque de componentes aeronáuticos, peças de reposição e consumo e ferramentas armazenados nas unidades da Massa Falida com entrada pela R. Tamoios 579 Jardim Aeroporto, São Paulo – SP e pela R. General Pantaleão Teles, 40, Jardim Aeroporto, São Paulo - SP.

Estes componentes foram classificados nas três categorias abaixo:

SERVICEABLE: é o item que está apto a ser instalado ou reutilizado em uma aeronave em operação.

UNSERVICEABLE: é o item que **NÃO** está apto a ser instalado ou utilizado em uma aeronave em operação, necessitando de reparo e/ou recertificação.

TOOL: é qualquer ferramenta ou insumo utilizado para manutenção e reparo das aeronaves.

Ressaltamos que os bens analisados estão detalhados na planilha anexa, que contém a descrição de cada produto, seu P/N (*Part Number*), classificação (*Tool, Serviceable ou Unserviceable*), quantidade, lote e valor.

3. MÉTODOS UTILIZADOS

Os procedimentos avaliatórios têm a finalidade de identificar o valor de um bem, de seus frutos e direitos, seu custo, bem como determinar indicadores de viabilidade.

Neste laudo, a metodologia aplicada para precificação dos bens foi o “**Método comparativo direto de dados de mercado**”.

Essa escolha foi feita com base na natureza dos bens avaliados, na finalidade da precificação e na disponibilidade, qualidade e quantidade de informações colhidas junto à Massa Falida e ao mercado.

Para a análise foram consideradas as características dos componentes e seu estado de conservação, além da depreciação acumulada conforme comparação com as fontes de informação de mercado.

4. OBJETIVO DA PRECIFICAÇÃO

Este laudo tem por objetivo servir de apoio à operação judicial no Processo nº 1125658-81.2018.8.26.0100 - 1ª Vara de Falências e Recuperações Judiciais do Fórum Central de São Paulo/SP, determinando o valor justo de mercado dos bens pertencentes à Massa Falida e classificados como Estoque de Componentes Aeronáuticos, com base em pesquisa de mercado específico para posterior alienação dos lotes em leilão.

5. ESPECIFICAÇÃO DA PRECIFICAÇÃO

A especificação de uma precificação está relacionada com o mercado e as informações que possam ser dele extraídas.

O estabelecimento inicial pelo contratante do grau de fundamentação desejado tem por objetivo a determinação do empenho no trabalho avaliatório, mas não representa garantia de alcance de graus elevados de fundamentação.

6. PRECIFICAÇÃO

Para realização da precificação foi feita ampla pesquisa junto a fabricantes, revendedores e representantes comerciais, além de sites e revistas online especializados no setor de aviação. Contou-se ainda com a parceria de engenheiros especializados, que colaboraram diretamente na coleta de dados.

A pesquisa, para determinação do valor unitário básico, verificou, com a devida cautela, a similaridade do equipamento avaliado, quando fora de linha, com o ora fabricado, ponderando as características produtivas e funcionais.

Foram analisados também os critérios de precificação para o mercado de USMs (*used serviceable materials*). Dessa forma, entende-se que, pelas práticas adotadas no setor, para os

itens classificados como *serviceable* e *tools* pode-se aplicar um deságio de até 40% sobre o preço unitário. Contudo, considerando o estado de conservação das peças da Massa Falida Oceanair e o não uso das mesmas a mais de um ano e meio, na presente avaliação vamos considerear um deságio de 50% para esses bens.

Já para os componentes identificados como *unserviceable*, a praxe do mercado é um deságio de 70%, visto que ainda precisarão de reparo e/ou recertificação adicional para estarem aptos ao uso.

Vale ressaltar que, nos valores indicados **NÃO** estão agregados os custos de montagem, instalação e transporte.

As fontes de informação indicadas abaixo foram usadas como referência bibliográfica para determinação dos valores dos componentes:

www.satair.com

www.airbusword.com

www.snapon.com.

www.ilsmart.com

www.partsbase.com

www.avm-mag.com

7. RESULTADO DA PRECIFICAÇÃO

Após a realização de ampla pesquisa podemos concluir que o valor aproximado para a venda dos bens descritos no presente laudo é:

US\$ 39.418.898,16

(TRINTA E NOVE MILHÕES, QUATROCENTOS E DEZOITO MIL, OITOCENTOS E NOVENTA E OITO DÓLARES AMERICANOS E DEZESSEIS CENTAVOS).
